HOW IT WORKS — THE 3-PILLAR SYSTEM

DIGITAL GUIDE
aafiends.com/90rr

We do not treat the obsession of the mind alone. We rebuild the biological vessel underneath it. Three systems, worked together every day, hold a single day of sobriety. Miss one leg and the stool tips over.

SURRENDER + D.O.S.E. + COMMUNITY = 1 DAY SOBER

LOWER CORTISOL · EARN YOUR OWN DOPAMINE · BREAK ISOLATION

1 · THE ENGINE

BODY · HARDWARE

Your body is hardware in the shop. Stabilize it first — a calm nervous system can finally run the spiritual software.

-  Sleep, light & movement
-  Fuel & hydration
-  Pain & recovery signals

2 · THE NETWORK

PEOPLE · SOCIAL

Addiction is a disease of isolation. Meetings, a sponsor, and reaching for people flood the system with oxytocin — the buffer against cravings.

-  Meetings & the rooms
-  Sponsor / Vanguard calls
-  Service & outreach

3 · THE MIRROR

SPIRIT · MIND

An honest daily read that strips the ego out of self-evaluation. Surrender what you cannot control; check the loops before they run you.

-  Stillness & surrender
-  Ego / resentment check
-  Gratitude & clarity

BASELINE INTEGRITY — 1 DAY SOBER

How to use this journal: each day is a two-page spread. **Side A** is your data — tick what you did across the three pillars. **Side B** is your reflection and score. Review every 7 days. The items are a menu, not a mandate — skip what you cannot do and use the blank slots.

KNOW THE ENEMY — ONE VIRUS, MANY FACES

DIGITAL GUIDE
[aafiends.com/
90rr](https://aafiends.com/90rr)

We do not treat addiction as a moral failing or a lack of willpower. It behaves like a virus — the Addiction Intelligence Virus (A.I.V.) — an adaptive infection of the brain's reward system.

SAME HIJACK, MANY FACES

ALCOHOL · OPIOIDS · NICOTINE · GAMBLING · MORE

Alcohol, opioids, nicotine, cannabis, gambling, porn, sugar, endless scrolling — the surface differs, the mechanism is identical. It floods the brain's dopamine / reward system, then forces the brain to down-regulate its own receptors. Soon you need it just to feel *normal*. That is why “just stop” fails — the wiring itself has been rewritten.

What it eats — stress (cortisol), resentment, ego, and isolation. Feed those and it grows stronger.

Why it is “intelligent” — it is polymorphic; it rewrites its lie to fit *you* (“you have earned this,” “just one,” “you are boring sober”).

How you starve it — the three pillars are the firewall: daily **data**, real **connection**, and **surrender** drain the stress and isolation it feeds on.

You are not weak or broken. You are up against something that behaves **intelligently** — so you beat it with a **system**, not shame.

Meet the virus and run the diagnostic at aivirus.org/the-virus · the BIO 12 firewall at aivirus.org/bio12.

THE 90-DAY GAME PLAN

DIGITAL GUIDE
aafiends.com/90rr

Recovery here is an engineering project on a 90-day horizon, mapped to how your brain chemistry actually heals. This workbook is Month 1 — The Reset. Months 2 and 3 use the exact same daily pages; the protocol simply deepens.

PHASE 1 · RESET

DAYS 1-30

Survive withdrawal, stabilize the nervous system, heal the gut-brain lining, lock your sleep clock.

- Day 1** Sanctuary: clear the supply
- Day 3** Deepest deficit
- Day 4** Gut reset begins
- Day 7** Body/spine maintenance
- Day 14** Circadian lock
- Day 30** GABA repaired

PHASE 2 · RESTRUCTURE

DAYS 31-60

Step down the crutches, re-introduce conditioning as your own dopamine returns, run the moral inventory.

- ~Day 40** Step-down of props
- Day 45** Zone 2 conditioning
- Steps 4-5** The honest audit
- Day 60** Boredom milestone

PHASE 3 · RECALIBRATE

DAYS 61-90

Solidify natural reward, restore relationships, finish the repair until the baseline holds on its own.

- Day 70** Sleep normalized
- Day 80** Joy / serotonin returns
- Steps 8-9** Amends loop
- Day 90** The Clearance

The 12 Steps, across the 90 days

Steps 1-3 · Reset — admit you are powerless, come to believe a power greater than you can help, and decide to let go.

Steps 4-7 · Restructure — a searching, honest inventory, shared; then willing to let the old defects go.

Steps 8-9 · Recalibrate — list those you have harmed and begin making direct amends.

Steps 10-12 · Every day — daily inventory, prayer/meditation, and carrying it to others. **This journal is your Steps 10 & 11.**

WHY IT WORKS — THE SCIENCE

DIGITAL GUIDE
[aafiends.com/
90rr](https://aafiends.com/90rr)

Nothing in this journal is a chore for its own sake. Every item repairs a specific part of the system the substance broke down. Here is the why behind the what.

The Data itself

Tracking objective numbers strips the ego out and shows you an honest baseline. Data over denial.

Sleep

Deep sleep clears brain waste and rebuilds GABA, your natural brake — less craving, anxiety, and fog.

Morning light

10–15 min of outdoor light sets your body clock: dopamine now, melatonin on time tonight.

Fermented / gut food

Most of your serotonin is made in the gut. Fermented foods rebuild the microbiome and steady mood.

Cold or a brisk walk

A clean dopamine and adrenaline lift you earned — the brain learns to feel good without a substance.

Pain & decompression

Stress dumps cortisol that inflames the weakest link. Tracking pain catches a stress spike early.

Meetings & service

Connection releases oxytocin, the biological opposite of isolation and its cravings.

Surrender / stillness

Handing over what you cannot control drops you out of fight-or-flight, lowering the craving-driving cortisol.

Go deeper anytime at aivirus.org/bio12 and aafiends.com/blog — or scan the guide above.

WHY COMMUNITY & A HIGHER POWER

DIGITAL GUIDE
aafiends.com/90rr

The body pillar is obvious. These two are where people quit — and they are exactly the two that keep you sober. Here is why neither is optional.

WHY COMMUNITY

THE NETWORK

Addiction is a disease of isolation. Alone, the mind uses your own voice to talk you back out — and you will believe it.

-  You cannot lie the way you lie to yourself
-  Oxytocin buffers the next craving
-  You borrow strength on empty days
-  Someone is expecting you

WHY A HIGHER POWER

AS YOU UNDERSTAND IT

You need one idea: you are not the highest power in your life. Self-will and ego got us here. Handing over the wheel lowers the stress that feeds the loop.

ONE DAY AT A TIME

THE WHOLE PRACTICE

Each day you do three things: **set down the ego**, **connect** with at least one person, and **rely on** a power greater than you. Do that for 24 hours — then again tomorrow. That is enough.

PREPS & TOOLS — SET YOURSELF UP

PREPS & TOOLS
[aafiends.com/
prep90](https://aafiends.com/prep90)

A few simple things make the daily reps far easier. Gather what you can before Day 1 — none of it has to be fancy.

GEAR TO HAVE

CHECK WHAT YOU HAVE GOT

- ☐ Apple cider vinegar + sea salt
- ☐ A watch —
- ☐ Garmin / Apple / Whoop / Oura
- ☐ A simple scale
- ☐ A groceries run (list below)
- ☐ Good pens you enjoy
- ☐ A quiet spot for meditation
- ☐ _____

PROTOCOLS & TIPS

SMALL HABITS, BIG RETURNS

Sleep-tracking tip

A watch turns “I slept okay” into real data — hours, wake-ups, HRV. Log those on Side A.

Power-Nap Protocol

Afternoon crash? Set a 36-minute alarm: ~5 to fall asleep + ~30 of real rest. Longer = groggy.

The 6 AM meeting

Anchor the day early. It front-loads connection and starts the streak before the day gets away.

STARTER GROCERIES

GUT · DOPAMINE · CALM

Fermented foods (kefir, yogurt, kimchi) · eggs · fatty fish / omega-3 · leafy greens · berries · bone broth · sea salt & electrolytes · plenty of water. Skip the energy drinks and heavy sugar.
